Workshops are designed for parents and carers who may have concerns about their children and wish to further understand the nature of their challenges.

WORKSHOPS

Entrance 30 euro - RSVP

UNDERSTANDING CHILDREN EMOTIONAL DEVELOPMENT

Emanuela Quagliata, Psy.D. - Child, Adolescent and Family Psychotherapist, Tavistock Clinic

Friday January 25th 2019, 5 - 6.30 pm

Being a parent or caretakers can be stressful, especially when the child you're responsible for has emotional or behavioural difficulties. Parents can feel 'stuck' when they want to help their child but don't know how to, or feel that whatever they try doesn't help or even makes things worse. This workshop provides parents and caretakers with some understanding and guidance about child development. Topics will include: the long-term effects of early experience, the development of verbal language, play and self-esteem; sudden regression, signs of isolation or autistic withdrawal; relationship problems inside and outside the family, the influence of peers and siblings, adolescent development.

ROOTING AND UPROOTING

Pascale Salomon, M.Ed. - International Counsellor

Saturday January 26th 2019, 10 - 12 am

In this workshop aimed at parents at families living a mobile life we will explore the numerous important facets of transitions. How transitions affect the immediate and long term lives of children and adolescents, the importance of understanding the joys and challenges and grief that are a part of moving as well as the need to develop a sense of belonging. Through the understanding of terms such as Third Culture Kids and Cross Culture, we will further understand the cultural iceberg, identity and the importance of the establishment of core relationships with family and friends.
